VOLUME XIV.

CHICAGO, TUESDAY, MAY 7, 1861

We publish this mording the proclamation of Gov. Yates, designating the companies which shall compass wine of the regiments provided for in the Ten Regiment bill. The other regiment will be composed of companies and parts of companies already in Camp Yates, and will consist mainly of velunteers from Chicago. A gentleman from Springfield informs us that this city and county will have four the two maining teen companies in the service altogether, lowest including these mustered into the original six regiments and the two companies of dragoons provided fet in the cavalry bill.

St. Louis Volunter rs.

The ra idity and enthusiam with which the Union men of St. Louis have responded to the call of their country to put down rebellion, is beyond all preise. Within the short period of three weeks, four full regiment—the full quots of Missouri—have been organized and entered the service of the United States, and have reached a degree of proficiency in discipline which is alone the result of that enthusiasm which should fil every pariots heart. This organization has been effected under many difficulties. The Union men have had to comend against a State Executive hostile to the government, a Legislature openly in favor of sectation, and the dity authorities in sympathy with the disunlocates. Yet, not-withstanding all these obstacles. In State or withstanding all these obstacles. To the Editor of the Resuley Past:

The Washington correspondent of the Philadelphia Inquirer tells this story of the capture of a traitor at the capital:

"On Baturday night, about twelve o'clock, General Sherman, of New York, and Mr. F. L. Button, of Pauladelphia, visited a driuking saloon on Pennsylvans a seeme, which had been représented to them as a secession resort. They found there three city policemen, all favorable to the rabels, and, after obtaining some important information, left and walked to the Capitol. Having secored the confidence of the landlord, they called gavin upon their return, and found one of the parties for whom they were locking. They successed in convincing him that he was in the hands of friends, and he was kind changle to accept a commission from them to destroy a bridge on the road to Annapolis, and procure sofficient sio so to break up the track as to prevent the further progress of the military to Washington. To complete the contract, Massra, Sherman and Buxton look the gentleman in a carriage to Willands, and introduced him to two Virginia, i here, in the pennons of General J. W. Nye of New York, and Colonel Vamphan, of Kansaa. To these gentlemen he gave complete evidence that he had been concerned in these wags bondish tricks before, and he was therefore escoried to the amnory of the Clay Butasion, and on the following morning thanked over to the castody of the gave his name as Fearred, and mangola shirod. A New Motor on the City Ballway, and a emash-Up.

During the brief but violent gale on Sunday, about 5 P. M., matters took on the semblance of a tornade, in the West Division, Union Park. Chimneys, trailises, and the more exposed adjuncts of buildings were the sufferers. On their sida track between Randol h and Madison street, the City Ballway Company had three ears shading, which the elements immediately chartered and sat of townward. immediately chartered and sat off townward, at a rate of speed forbidden in the Company's Charter. A half tipsy Dutchman, who had strolled into one of them for shelter, awakened by the din, and seeing the vehicle that moving off without any of the ordinary at fachurents, appeal of to all the saints in a body, an i jumped from the car, landing, much dam-sped, is the mud.

The first ear kept on its mad career until it reached the turnout on Mad son street where it collided with a car bound up, and loaded with parsengers. This it upset with a terrific crash. We are sorty to learn that Rov. Mr. Pratt the esteemed Rector of Trinity, was severely cut across the forehead. None of the other passengers were injured. The operatives of the Company observing the escan logular accident for a City Rallway, and

might have had much more serious results. Good for the Railroad Boys. The railroad employees are sound to the re, and they weed out all exceptions, presensing an univoken front to the enemy.

The clerks of the free and apparament of the Michigan Southern Rallroad raised among themselves the sum of \$100, to purchase a U. S. flag, and on Saturday raised a pole 115 feet. high, at the south end of the freight depot, on railroad company farmished the pole, having sent it up from Indiana woods. A glorious time was had getting up the pole. The same afternoon the boys of the St.

Louis, Alton and Chicago Rallroad, ma their corner of Canal street and West handsement in the city. They used the occa-sion pleasant and notable. This road and its employees have done noble service to the cause of the country. They have worked with a will in it, and not otherwise could the trans-incission of immense trains of troops and mumilions been accompilated. Coi. Mason has made his spirit and enterprise pervade every department of this admirable road, now one of the best in the State.

Well Done Irish Brigade.
On the receipt of intelligence from Spring field that they could not be mustered into the On the receipt or meeting coes from a pringfield that they could not be mustered into the
Government service, the gallant Irish Brigado
held a meeting at which the entire force was
present. After reveral strong speeches a vote
was taken as to whether they would dishard.
Only rown onto depth hundred and sixty four
men voted aye, the rest determining, by this
spirited action, to hold on to their organization and continue their drill and perfect their
tequipment. This is nobly done by the
Brigade, and is entirely worthy of the
gallant fellows. Let them go forward and
our citizens will make it an evide of city pride
to see that they lack for nothing that shall put
them into the field a spiendid body of men.
Elsewhere it will be seen that efforts are being
made incorporating these companies into Col.
V an Asman's regiment, to offer the same directly to the United States. Whether this idone or not, and we cannot look upon it as
otherwise than somewhat doubtful, the Brigade must be put in trim for the service it will
be inevitably called upon to perform in time.

Heretofore when unpaid letters have been deposited in the Post Office, it has been the duty of the Postmaster to notify the persons to whom they were addressed, and upon such persons paying the postage, the letters were forwarded to their destination. At the last assain of Congress the section of the Post Office law under which this was done, was repealed; and hereafter all unpaid letters deposited in any Post Office will be forwarded direct to the Department at Washington as "dead letters," or latters for city delivery. All drop letters, on which postage is not propaid will be treasted in the same manner.

To the Disbanded Companies.

We see by the papers that you are so templating forming independent companies and we hope you may do so, as more such companies will be needed, particularly in this State. If the ladies of the Sewing Hell can be of any service to you, do not hesitais to command thum—they will be most happy to do anything in their power to exist you. You can heave orders at the ticket office of the theater if the ladies are not in their room.

Derman's Sale and Shipping You R. R.—Markets reported by Wal-szyressly for the Tribuns, we day, May 6, 1861:

50/sc for No 2 Spring, closing at the Inside quotation.

A large quantity of wheath nascks, from points along the Mississippi River, bitherto tributary to St. Louis, is now being received here and as bagged wheat is purchased only by millers, the market for it is dail, and sales to day were made at below the price of the same grade in store. Shippers, therefore, will see the importance of sending their grain in balk.

The Cora market was active, and prices were steady and firm—closing, however, very dull, about 150,000 bushels of all grades changed hands at 540,545/s. for River Mixed, along; 350,345/c, for Mixed, in stere; and 251/c (250) for Rejected, in stere. There was some inquiry for Oats, but at lower prices, and there were no transactions. Rye was sold at 45° on track. Barley is neglected. Highwines are still dull and 100 bbls, were sold at 14c. J C Bons. 130 Robstine & Ethis. 60 Total. 3 10:50 T. S. Huge are dull, and range from \$4 60 to \$4.00 y. Sales of Sheep at \$5 20:50.50 for shere, and \$4.00 G4.20 for good and fat, with the wood on. Lamb. \$1.00 50.00 to \$2.00. Calves, \$5:50.50 y. S.

Highwines are still dull and 100 bbls, were sold at ide.

The high rate of eastern exchange and the want of confidence in currenty, has caused an outside inquiry for Mess Pork, and the market closes firmer with noise of 400 bbls, at \$ \$\frac{1}{2}\$ \$\text{O.03}\$ \$\text{0.03}\$ \$\text{0.05}\$ \$\tex TARKETS BY THE LATEST MALLA.
